

ZOLL Medical selected for National Defibrillator Framework Agreement

ZOLL is pleased to announce that it has been successful in becoming one of the chosen suppliers on the National Defibrillator Framework Agreement. Tendered and run by the NHS Supply Chain, this contract replaces the previous PaSA Agreement and is designed to give all NHS hospitals a highly competitive, tendered contract from which to procure defibrillators (both professional devices and AEDs.)

ZOLL UK's Managing Director, Mark Webster commented:

“We are pleased to have been selected as a supplier on the National Defibrillator Framework Agreement. ZOLL technology and service have long been relied upon by both ambulance services and hospital Trusts alike across the entire NHS. This Agreement will help streamline purchasing of ZOLL defibrillators for both our highly-valued existing customers and those considering investing in our technology.”

This Framework Agreement commenced on 8th July 2008 for an initial period of 2 years with an option to extend for a further 2 years. For details please contact either Angela Dunigan at the NHS Supply Chain on 07767 374967 or your local ZOLL representative on 01928 595 160.
